Since 2008, Aurora Diagnostics GPA Laboratories (GPA) has been privileged to include Dr. Joshua B. Kish as a highly valued member of its medical staff. As Director of Anatomic Pathology at GPA, Dr. Kish is responsible for overseeing the development and expansion of GPA's AP surgical pathology services.

Dr. Kish is nationally board-certified in anatomic and clinical pathology with expertise in gynecologic and breast pathology. Having earned his medical degree (MD) from Wayne State University School of Medicine, Dr. Kish subsequently completed a four-year residency in anatomic and clinical pathology and a one-year fellowship in women's cancers at the prestigious Massachusetts General Hospital/Harvard Medical School. While at Harvard, Dr. Kish studied under internationally known experts Drs. Robert Young and Robert Scully in gynecologic pathology and Dr. Frederick Koerner in breast pathology.

Since earning his undergraduate degree (BS in biology) from Albion College, Albion, MI, in 1997 (graduating cum laude from the Honors College), Dr. Kish has served with distinction in the following professional capacities:

- Laboratory technician, Department of Pathology, University of Michigan, Ann Arbor.
- Pathologist, GPA, Greensboro, NC.
- Member, medical peer review committee, Cone Health (formerly Moses Cone Health System), Greensboro, NC.
- Pathology representative, Cone Health Cancer Committee, Greensboro, NC.
- Director, Anatomic Pathology, GPA, Greensboro, NC.
- Chief of Pathology, Cone Health, Greensboro, NC.
- Co-director, Triad Breast Program, Greensboro, NC.

Dr. Kish has coauthored multiple scientific articles that were published in some of the more prestigious medical journals. (See the reverse side of this CV for a sampling of his published works.)
